

Gas purity / trace pollution

ECM is designing and supplying analyzer systems for quality control of industrial gases integrating gas purity analyzers of the worldwide market leader – the company Servomex as well.

We offer solutions vary from single portable or desk top systems, via analyzer cabinets for quality control of medical gases according to Pharmacopeia, up to complex gas analyzer systems for process control and optimization of the operation of Air Separation Units.

ECM Group became a recognised partner and supplier of gas analyzer systems to the market leaders of the gas industry. The market leaders which are listed below are among our clients:

- | | |
|-----------------------------|-----------------------------|
| – Messer | HR, RS, BA, BG, MK, SI, CZ, |
| – Group Air | SK, H AT, BG, CZ, SK, H |
| – Liquide Linde | BG, GR |
| – Gas | BG, BA, MK |
| – PRAXAIR (Istrabenz Plini) | SI |
| – Air Products (Sapio | SI, |
| – Plini) SIAD | CZ CZ |

SALES STRATEGY

Our Business is driven by:
Process Optimization as well as Legislation Compliance

Typical Applications:
ASU enhanced efficiency at the production of Ar, O₂ & N₂
ASU Safety of production process

Quality certification of Medical Gases according to Pharmacopeia
Purity control of gases in the Food & Beverage Industry e.g. CO₂ according to GMP

A “WIN-WIN” SOLUTION

The Integrated Automatic Analyzer System offers:

- ✓ Cost saving through multiple use of the same analyzers for various gases
- ✓ Highest reliability through automatic, (partially attended) operation
- ✓ Increased reliability through proper selection of wetted materials
- ✓ Multiple gas inlets from Cylinders, from Tanks or from Trucks
- ✓ Acceleration of measurement by well designed purging concept.
- ✓ Possibility for Validation of the whole Analyzer System

OUR COMPETITIVE ADVANTAGE

ECM supplies to the industrial market Analyzers as well as Automatic Monitoring Systems to the highest quality standards, utilizing leading edge technologies as well as proven measuring methods.

We offer a top class Engineering and highest quality of Workmanship at affordable cost as well as long term after sales support.

The Execution and workmanship of each Project has the full attention of the company Management.
